U.S. Patent and Trademark Office PTOL-303 (Rev. 7-05)

Application No.

Continuation of 11. does NOT place the application in condition for allowance because: In the Request for Reconsideration filed on 10/14/2005, the applicant agreed with the examiner that the "adjacent sides of two adjacent microlenses are parallel to each other" (see page 1, last two lines of the Request for Reconsideration). Therefore, if they are parallel, they cannot be perpendicular, as claimed on the amendment filed on 04/22/2005 (which introduces new matter). Furthermore, the limitation "adjacent sides within a microlens being perpendicular to each other" is NOT described in the original specification; therefore, it is new matter.
